E. H. PIDGEON,

See the Buick Sedan—it is a lovely car.

Buick-Pontiac Motors. Stony Plain.

Accident on Baseline.

A party of hunters were motoring west on the Baseline Saturday morning, headed for the woods. The six men of the party had come from the Clover Bar district, and were traveling in three cars, with their equipment. While the McLaughlin, the last car, was opposite the gateway of Mr P Schoepp, four miles west, it slipped off the grade and turned turtle going down an eighteen foot incline. Neither of the companions sustained any serious injury, but the McLaughlin was pretty badly damaged—so much so that what was once a nice closed vehicle is now a perfectly open car, from the seats up. The auto was hauled to Stony for repairs, while the party continued their journey in the two remaining cars. This piece of road was in a fairly safe condition before the "improvements" were made to it last season.

Sporting Notes

A large number of skaters were present, Sunday afternoon, on the Eberhardt Pond. The improvements at the local skating rink will shortly be completed.

The curling season opens, this year, a little later than usual, with the local rink being in shape for play by to-morrow night. One stalwart will be found missing this season—that good old standby, Albert Wurtz, not feeling fit enough to sling the rocks.

Pool's Farm Storage Scheme

Starting this week the Alberta wheat pool will pay 2c premium on all late deliveries under the farm storage plan. In the opinion of the manager of the Pool for the north, Mr Boyle, there is still a considerable amount on the farms in the north. Some of the wheat pool members were holding back deliveries until after Dec. 1 to take advantage of the 2c premium for farm storage; just what percentage cannot as yet be estimated.

United Church Notes.

In the near future we expect to have an illustrated lecture on Mountain Climbing by Capt. Gibson, who succeeded in climbing a high peak in the Rockies, last summer. The annual bazar put on by the Ladies Aid proved a great success. The display of plain sewing, home cooking, etc., found ready sale and the 'teas' were all that could be desired.

The cantata presented by the Sunday school is to be held on Dec. 15 instead of a previous date reported in error.

Miss Miller has organised a C.G.I.T. Group.

SANTA CLAUS IS NOW AT HARDWICK'S GIFT SHOP.

Proposal That Food Ships In War Time Shall Have Freedom Of Seas, Is Strong Peace Gesture

President Hoover's proposal that ships shall have the freedom of the seas in war time, clashes directly with the master strategy of war. That is why, no doubt, the President puts it forward only as a suggestion, something to be implanted in the public mind at a time when the main trend of thought is running against war.

It is a preparedness measure, this utterance of Mr. Hoover's; it accords with his plea for concentration of thought and energy upon preparedness for peace. For while statesmen and citizens are striving to devise means to settle controversies that might lead to war, science is steadily at work on means to make war more horrible. Not that the scientists are war makers. But that they respond naturally to the age-old urge of the war phycians.

Starvation has always been one of war's weapons. Only since its all-enveloping possibilities as developed in the World War have become so apparent to mankind has starvation of a whole people especially by women and children, evoked abhorrence in the peace time that succeeds war. Science may devise greater and greater weapons of war; strategy may counsel the winning of victory by involvement of a whole people in the enormity of defeat. But the Twentieth Century has made war so all-inclusive that the weapon of starvation, tolerable when its sleage was relatively limited to scope, must soon, if it does not now, command a new place in the view of humanity. For, instead of making war more horrible, this advance would make it less effective, and so less the resort of nations.

It is with this trend in mind, no doubt, that the President implants the idea in the American mind. He recognizes, as well, that ideas must first germinate, if they are to take root and thrive. He distinctly says this proposal of free food ships will not be injected into the London Naval Conference. For the furtherance of agreement at that conference, he reiterates his principles of naval reduction by agreement; he pleads the cause of international conference to avoid war; he pledges his endeavor to maintain the defensive excellence of the Nation's military and naval arms; and he bespeaks the need for taking every means toward understanding among people.

The most salient point in his Armistice Day address—his solution of the problem of freedom of the seas—he offers for further study. It may well prove to be his greatest contribution to preparedness for peace.—Minneapolis Journal.

Weather Moves In Cycles

Has Not Changed In 30,000 Years
Opinion Of Scientists

The weather not only is no different from what it was a generation ago, but it's just the same as it was 30,000 years ago, it was said at the American Academy of Science conference in Princeton, N. J. Dr. A. Reed and Ernst Antevy, of the American Museum of Natural history, by examining clay deposits in New England, found that the weather then—as it does now, they added—moved in cycles of from three to five years each of cool and warm years.

"You are an hour late, Meier. Where have you been?"
"I fell down the stairs."
"Nonsense! That does not take an hour."—Lustige Koller Zeitung, Cologne.

W. N. U. 1814

Winnipeg Newspaper Union

(By Annabelle Worthington)

A charming addition to your Fall wardrobe is a transparent velvet printed in dahlia purple tones, most admirably suited to all-day occasions. The Style No. 2723 sketched emphasizes the curved neckline all Paris is talking about. The sleeky slender skirt, draped at right angle, shows interesting wrapped movement.

The becoming open V-neckline is finished with rolled collar. Sleeves have darts below elbows to give arms slender appearance. Front shoulders are fitted and narrowed by inverted tucks.

The bodice is long-waisted to affect hip yoke. This makes it very simple for home seamstress, for after the tucks are stitched in shoulders, the back is joined to the two front sections. The two-piece skirt with cascade drapery on right side is seamed and stitched to bodice. It is now ready to sew collar at neckline and set sleeves into armholes.

About two hours of your time and you have a perfectly adorable dress that takes but 3 1/2 yards of 40-inch material with 1/2 yard of 32-inch contrasting to copy it exactly.

It comes in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It is very attractive made of black crepe sat'n with rolled collar of egg-shell shade falls silk crepe. Silk crepe in bottle green self-trimmed and feather-weight woolen in army blue in clever zigzag pattern are smart daytime selections.

For more formal wear, choose Lucerne blue transparent velvet. Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

A fig that tastes like an apple has been produced. Just what is wrong with a fig that tastes like a fig is not stated.

BENJAMIN FRANKLIN'S HOME IN LONDON, ENGLAND

This building at 36 Craven St., London, England, now used as a hotel, was for fifteen years the residence of Benjamin Franklin. On it is a tablet which reads: "Benjamin Franklin (1706-1790) Lived Here."

Muskrat Farming Has Great Possibilities

Steady Increase In Number Engaged In This Industry

A decline in the natural supply of muskrats and an increase in the value of their pelts are indicated by figures furnished in a booklet, "The Muskrat, a Canadian Fur Resource," issued by the Natural Resources Intelligence Service of the Federal Department of the Interior.

As a result of these conditions, there has been a steady increase in the number of fur farms engaged in raising muskrats for their pelts. The total for the Dominion is reported to be 172, an increase of more than fifty per cent. over the previous year, when 107 were listed.

There is no indication of a possible drop in prices because of falling off in demand. When the muskrat appears as part of My Lady's costume, it is "Hudson Seal," which continues to be one of the most popular and satisfactory furs. Its appearance commends it to those who are seeking a garment that is handsome as well as warm, and its durability is an important asset. The tendency is for an increase rather than a decrease in the demand, and if the supply is falling off, prices naturally will tend upwards.

Power Commissions In Canada

In Manitoba, Ontario, New Brunswick, and Nova Scotia, commissions under the Government have been formed to develop or purchase power and to transmit and distribute electric energy. The greatest development in this field has been in Ontario through the Hydro-Electric Power Commission formed in 1905.

One of the advantages of telling the truth is that you don't have to remember what you said.

SITTING PRETTY

Calcutta—Hindu fakir rests on bed of spikes.

He is a Hindu Fakir in India, and to prove that he is leading a life of ascetic, not to mention severe discomfort, he has been seated on this bed of ten-inch spikes, for the last ten years or so. No doubt he gets up now and again and stretches himself, but in the main he remains seated. Without having exactly an air of stricken joy on his face, he is not looking too downhearted. This is one of the amazing sights that are seen by round-the-world tourists on the Canadian Pacific Steamships cruise that starts out from New York next month.

Problem of Juvenile Delinquency Should Receive Serious Attention Of The People Of Canada

A thought that should make us pause and consider for a while the problem of juvenile delinquency, is the recent statement of a police officer that fully sixty per cent. of the crime committed in the average large city, is the work of boys under twenty-one years of age.

It is a fascinating study to try to determine from whence the criminal classes spring. Almost invariably an investigation shows—that in every large city the criminals grow up with it. Occasionally we allow an American "bad man" or a crook from other countries to slip through our gates, but the majority of our criminals are the former "bad boys" of the neighborhood, who won that title through carelessness of the parents in bringing them up, and who develop from the "bad boy" stage to the hoodlum, the street corner loafer, and from that point, still without restraint to the skilled crook, who is determined to be an enemy of society and an aristocrat of the underworld.

Experience has taught criminologists that it is not the boy of from twelve to fifteen years of age, who stays by his own friends in the evenings, who develops into the dangerous character. It is the boy who is allowed by his parents to wander the streets at all hours of the night.

An incident which police officials in Toronto encountered recently, illustrates how far matters can go when there is laxity in the home. They had occasion to consider a small boy, fifteen years of age, whose two brothers were both in the penitentiary. When the police called at the house to get the boy, they were stopped at the door by his little sister, nine years of age who had the temerity and the persistence to resist their entry, contending that they couldn't enter the house without a warrant.

The explanation as to why this home and thought of other turn out this type of citizen instead of the kind of man or woman of whom we might be proud, can be summed up in three words—"lack of discipline."

The tendency to coddle children, to let them have their own way too much, to permit them to run wild in the streets, because they might be too much trouble in the house, is to be blamed for the fact that the upkeep of penal institutions forms a large portion of our taxes.

There is inclined to be too much sentimentality in connection with dealing with our unruly children. This discussion should not, for one minute, be construed as an out-and-out support of the maxim, "Spare the rod and spoil the child." Many of us do not find it necessary to discipline our children by punishment, and we gratefully accept the opportunity of avoiding this disagreeable task. But when a boy shows signs of being incorrigible along certain lines, and drastic action is going to make a difference in his future life, we should not be so weak that we coddle our children to their own undoing.

Respect for their elders should be a cardinal rule with the children in every home. Nothing may influence a

boy's life more than developing the habit of saying "yes sir" or "no ma'am" and to get the idea in their heads that the elders are apt to know more than they do.

Just to show you the predominance of youth in crime statistics, I would like to quote you the following figures, which are worked on the basis of the 1921 census, when it was calculated that there were 5,456,000 males in Canada.

Of the juvenile from 10 to 16 years of age, 1 in every 87 is a criminal.
Of the youths from 16 to 20 years old, 1 in every 75 is a criminal.

Of the men from 20 to 40 years of age, 1 in every 106 is a criminal.
Of the men from 40 to 100 years of age, 1 in every 245 is a criminal.

If we take pains to teach our children that:

(1)—Laws are made for their protection and that consequently they should respect them.

(2)—That a clean mind, sound body and good character, with the desire and ability to work, are God's greatest gift to humanity.

(3)—That honesty is the best policy, and the way of the transgressor is the road to ruin.

(4)—That Canada has greater opportunities to offer them for the future than any other place on earth, if they develop knowledge and wisdom and grow up to respect the laws of God and man.

(5)—That we, their elders, are their protectors and friends, and that they should come to us when they are in trouble, danger, or in need of advice.

We will be doing our duties as parents and will be helping our sons and daughters to grow up into fine Canadians, than which there is no finer specimen in the world.

Makes Tour Of World

Corn Cob Pipe Started Journey From Prince Rupert Some Years Ago

It's only a "barnyard meerschaum" in other words a battered corn cob pipe, but it has seen the world and is en route home with labels, poems and newspaper clippings to prove it. The globe-trotting corn cob pipe, into the Canadian National head offices at Montreal from England, on the last leg of its journey around the world. Some years ago a baggage agent of the Canadian National Railway at Prince Rupert, B.C., started the old corn cob pipe on its world tour with a tag attached asking the recipient to forward it in turn to a Canadian National agent in Australia. Since then the pipe has travelled, Australia, New Zealand, Hong Kong, and England, were a few of the countries of call, most of the agents at points visited attaching a message in the form of newspaper clippings, poem, or photograph, representative of the territory. Now the pipe, which was the original shipment, is almost lost in the hundred odd tags attached to it; but from Montreal it returns to Prince Rupert, to the man who started it on its globe trotting tour.

Weather in Mount McKinley National Park, Alaska, varied 115 degrees during the past year, the thermometer reaching 51 degrees below zero on December 12, 1929, and 84 degrees above on June 24, 1929.

"Why didn't you keep the secret I told you?"
"Why didn't you keep it yourself?"

He: Before I propose, may I ask if you have anything in the bank?
She: I have a fiancé who is a coarser than, and we are to be married next month.—En Rolig Häft Timma, Gothenborg.

RELIEVED QUICKLY
CARTER'S LIVER PILLS
 The New Vegetable Pill will move the bowels without any pain and depressing after effects. Sick Headaches, Indigestion, Biliousness and Bad Complexion quickly relieved. Children and Adults can easily swallow Dr. Carter's tiny, sugar coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and 75c red pills.

CARTER'S LIVER PILLS

WORLD HAPPENINGS BRIEFLY TOLD

Quarterly returns indicated that Great Britain's births would exceed deaths by considerably less than 200,000 this year compared with 400,000 in 1920.

The U.S. National Geographic Society has announced it has granted an additional \$25,000 to Commander Richard E. Byrd for his Antarctic expedition. The society already had granted \$25,000.

An international conference looking toward the regulation of operation of trawlers in the fishing industry off the Canadian coast may be called at Ottawa next year, the Department of Commerce, at Washington, is informed.

Allotment of millions of dollars for construction of new cruisers and submarines will be considered by the U.S. House Appropriations Committee in January, regardless of the naval limitation conference beginning in London, England, that month.

Former Governor Alfred E. Smith, of New York, has revealed that his company is to erect on the site of the old Waldorf-Astoria hotel, will tower 85 stories into the air, thus soaring higher than any other structure in the world.

Brazil has agreed to accept a large percentage of the German-Russian refugees, some of whom are already in Germany, while others are awaiting opportunity to leave Russia. The peasants will be given refuge in Southern Brazil, where there are a number of German settlements.

Among the candidates whose names have come before the committee which will award the Nobel Peace prize is that of Frank B. Kellogg, former U.S. Secretary of State and co-worker with Foreign Minister Briand in bringing about the famous Kellogg-Briand renunciation of war pact.

The council of the Chinese government has addressed an appeal both to the League of Nations and to individual signatories of the Kellogg-Briand peace pact to take steps to halt and punish the Russia Soviet "invasion" of Chinese territory. The invasion was termed a deliberate violation of the anti-war pact.

Persian Balm creates lovely complexions. Velvety smooth. Cools and relieves the skin. Makes it delightfully soft-textured. Always fragrant. Delightful to use. Swiftly absorbed by the tissues, imparting that elusive charm so distinctive of the dainty woman. Persian Balm protects the delicate skin. Preserves and enhances the loveliest complexion. Every discriminating woman should use this almighty lotion. It is unrivaled as a flawless aid to beauty.

Flora of Waterton Lakes Park
 The prairie flora and the mountain flora meet in Waterton Lakes National Park in the southwest corner of the province of Alberta. Here, in the valleys, and on the lower eastern slopes of the Rocky Mountains, the wild flowers bloom in May and June. In July the higher passes are colourful with delicate blossoms of every hue.

There is a good deal in what a great philosopher has said, "The most utterly lost of all days is that in which you have not laughed."

Canada To Import British West Indies Fruits

Fifteen Thousand Crates Of Oranges From Dominica To Come Next Year

"We expect to ship from ten to fifteen thousand crates of Dominica oranges into the Maritime and Montreal markets next year," declared Captain A. D. Robertson, of Dominica, B.W.I., who arrived at Saint John on the R.M.S. Lady Nelson, of the Canadian National Steamships, from the West Indies.

Captain Robertson, who took up the cultivation of oranges and grapefruit at Dominica as a hobby after the war, stated that there were excellent possibilities for the cultivation of citrus fruit on the island of Dominica, and he said that at the Manchester Exhibition, the Dominica oranges and grapefruit captured first place over the California product. Eighty per cent. of his product consists of Washington navels, all grafted on sour orange stock. A unique feature of the Dominica citrus fruit industry was that on his estate he discovered several trees of Valencia's, which had no seeds. He visualized great possibilities for the industry, which, in his opinion should result in Canadians obtaining their oranges and grapefruit at a lower price.

The backwardness of the development of the citrus fruit industry in Dominica, Captain Robertson stated, was due to the lack of adequate steamship services, but with the advent of the Canadian National Steamships, the industry was enabled to develop. He has associated with him in his enterprise, Mr. J. E. Knowlton, who accompanied him on his trip. The climate of Dominica, Captain Robertson declared, was delightful, with an average temperature of 75 degrees.

Captain Robertson was associated with the Gordons during the war, serving on the Bulgarian and Western Fronts.

Recipes For This Week

(By Betty Barclay)

MACEDOINE OF FRUIT

(Serves 6)

- 1 cup diced pineapple.
- 1 cup grapefruit cut in pieces.
- 1/2 cup apple cut in pieces.
- 1/2 cup orange sections.
- 1/2 cup confectioner's sugar.
- Orange ice.

Combine the fruits and add sugar. Mix and chill thoroughly. When ready to serve put some of the fruit and syrup in an individual serving dish and place on it a ball of orange ice.

PLUM PUDDING

- 1 package chocolate junket.
- 1 pint milk.
- 1/2 cup raisins.
- 1/2 cup dates.
- 1/2 cup figs.
- 1 cup water.
- 1/2 cup sugar.
- 1 tablespoon lemon juice.
- 1/2 teaspoon cinnamon.
- 1/2 teaspoon clove.

Cut raisins, dates and figs in small pieces; add water and cook slowly until tender. Add sugar and boil until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses. Warm the milk until it boils; add water and cook slowly until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses. Warm the milk until it boils; add water and cook slowly until thick. Add lemon juice. Cool slightly; place in bottoms of individual dessert glasses.

B.C. Whaling Season

Some 15,000 barrels of whale oil were produced during the whaling season at the two British Columbian plants of the Consolidated Whaling Company Limited, the result of operations of a fleet of six hunting vessels and a 250-ton tender. Among the 388 whales taken were a record number of sperm.

A Peculiar Plant

The plant coral-root has neither root nor leaves, being a cluster of underground stems and an upright branch which is a few inches high and bears a number of purplish flowers.

A new and hitherto unknown route across the Rocky Mountains has been discovered through a pass into British Columbia over the western boundary of Jasper Park, Alberta.

SUNDAY SCHOOL LESSON

DECEMBER 8

HELPING NEIGHBORS IN NEED

Golden Text: "Thou shalt love thy neighbor as thyself."—Leviticus 19:18.
 Lesson: Matthew 23:31-46; Luke 10:28-37; James 1:27; 2:14-17.
 Devotional Reading: Luke 6:27-36.

Explanations and Comments

Service For Others Is Service For Christ, verses 34-40.—To those on His right hand the Judge will say, "Come ye blessed of my Father; inherit the Kingdom prepared for you from the foundation of the world." "The thought of God from the beginning looked towards those who by such conduct would inherit such reward."—R. H. Horton.

For I was hungry, and ye gave Me to eat; I was thirsty, and ye gave Me to drink; I was a stranger and ye took Me in; I was in herbores—harbores—Me, Wycliff's Version; naked (poorly clad), and ye clothed Me; I was sick and ye visited Me; I was in prison, and ye came unto Me.

The righteous are sincerely humble, and they ask when it was that they saw the King in need and helped Him. "Wardworth speaks of the little, nameless, unremembered acts of kindness and of love that are the best portion of a good man's life. The acts of kindness were forgotten just because they were instinctive, but, Jesus emphasized the point, they are decisive; they came, as another of His telling phrases suggests, from the overflow of the heart; and they reveal it."—J. R. Glover.

The Fate Of Those Who Fail To Serve Christ By Serving Others, verses 41-46.—To those on His left hand, the unrighteous, the King will say, "Depart from Me, ye cursed, into the eternal fire, which is prepared for the devil and his angels." The Greek word here is Gehenna, the name of the city walls of Jerusalem to which the garbage and other refuse of the city was carried and burned.

For I was hungry, and ye did not give Me to eat; I was thirsty, and ye gave Me no drink. "When" they ask, and receive the answer, "Inasmuch as ye did it not unto one of these least, ye did it not unto Me." There are few things on which the New Testament is more severe in its condemnation than uselessness and self-centered living. The sin of doing nothing in a world of clamant need is a sin that is pilloried and branded with the utmost condemnation of Christ.—Charles Brown.

How One Failed To Be a Good Samaritan.—"Master, I have this day broken no law of the Ten—have hurt no one. Is it enough?" "Child, there stood one by thy side burdened with heavy tasks, and yet, earthly labor. For a little help, a little easing of the burden, he looked to thee. Thou hadst time and strength."

"Master, I did not hear." "Thine ear was dull. There came a guest to seek thy converse, a human friend in quest of fellowship. I marked him, thy fellowman. Why was thy heart not glad?" "I was reading, I hate to be disturbed, to be called from great thoughts to trifling talk."

"The children would have these some few moments in their play. Without these they went wrong—how far wrong thou wilt not know. It is too late."

"Child's play? But I was searching for a hidden truth of spiritual import."

"Thou didst not turn aside to lift that lame one who had fallen by the way."

"I was in haste to do what I had planned. I meant to help him when I should return."

"Another lifted him. Shall I question further?"—Unknown.

I never cut my neighbor's throat; My neighbor's gold I never stole; I never spilt his house and land; But God have mercy on my soul! For I am haunted night and day By all the deeds I have not done; O unattained loveliness! O costly valor never won!—Marguerite Wilkins.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callous comes off without injury to the flesh.

Applicant: "And if I take the job am I to get a raise in salary every year?"

Employer: "Yes, provided, of course, that your work is satisfactory."

Applicant: "Ah, I thought there was a catch in it somewhere!"

Increase In Life Insurance

\$650 In Insurance For Every Man, Woman and Child In the Dominion

The total amount of life insurance carried by the people of Canada is at present about \$6,500,000,000 or approximately \$650 for every man, woman and child in the Dominion. The United States with \$750 per head of population is the only country in the world that exceeds Canada in the amount of life insurance carried.

The number of life insurance policies in force in Canada is 7,000,000 in round figures, or about three for every family in the Dominion. An encouraging fact about life insurance in Canada is that no one has ever lost a cent as a result of the failure of a Canadian life insurance company, which is principally due to the supervision of the Canadian Government Department of Insurance over the companies for the protection of policy holders.

Over \$300,000,000 is paid annually by the people to Canada life insurance premiums. In the past 10 years the number of policies carried has doubled and the assets of the Canadian life insurance companies is placed at \$1,205,000,000.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light lust strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is secondly, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 34 inches only. A square yard of WINDOLITE weighs about 14 lbs. while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask In 100% Sunlight Send for booklet "WINDOLITE"

HUGE VOLUME OF GRAIN HANDLED BY WHEAT POOL

Winnipeg, Man.—Total handling of 253,102,585 bushels of wheat and 35,494,057 bushels of coarse grains is reported by the Canadian Wheat Pool in the annual report of the board of directors, issued here.

The gross turnover for the year amounted to \$288,007,071, a reduction from the previous year of \$35,000,000, largely accounted for in the carry-over of wheat which on August 31, 1929, amounted to 48,358,585 bushels.

Sales of wheat over the marketing period under review—1928-29—the report states, have been remarkably regular in view of the extreme conditions of the world's markets which had to be contended with. The carry-over was a result of the superabundance of supplies which could not be placed into consumption channels without demoralizing the world markets.

Deliveries to country elevators or over platforms in the western inspection division during the year ending July 31 last, were 475,711,628 bushels of wheat, of which 244,248,200 bushels were delivered to the Pool, or 51.3 per cent. of the total crop.

Dealing with the export trade the report shows that the Canadian pool shipped to 90 ports in 19 countries, a total of 108,140,608 bushels, the largest shipment being to the United Kingdom, 34,664,851 bushels.

No announcement of the final payment has yet been made, the report says, in view of the large carry-over on hand from last year. This is the first year that there has been such a carry-over. The only alternative was to have sold the crop at a price level that would have made the investment attractive to the speculator. Such an operation would, the report states, have an effect on new crop price levels which would be disastrous.

"The year as a whole has been one of many perplexities and grave anxieties," says the report. "The system upon which pool operations are based has, however, withstood every strain placed upon it so far, and has never functioned with more efficiency than in the past year of surplus supplies."

Millions For Good Roads

Saskatchewan Government Projects Six Main Highways In Province

Regina.—Saskatchewan's government will spend \$5,000,000 to improve highways of the province, according to a prediction made by Hon. C. A. Stewart, Minister of Highways.

Through this expenditure six main trunk highways will be completed with all-weather surfacing within a few years, according to Mr. Stewart.

At the same time Hon. J. A. Merkle, provincial secretary, told of plans to make a \$5 cent motor vehicle license issued in the province during 1930.

Reduction of motor licenses would amount to \$600,000, as about 120,000 motor vehicles are now in use in the province. At the same time this figure represents an increase of about 10,000 vehicles over last year's total. The government is, however, figuring on an increase in the gasoline tax to five cents. This jump from the present impost of three cents per gallon would mean additional revenue for the province of possibly \$1,000,000.

Two Killed In Railway Crash

Vancouver, B.C.—D. O. Watkins, of Jasper, engineer on an extra east-bound freight and fireman E. C. F. Bragg, of Edmonton, on a westbound freight of the Canadian National Railway, lost their lives as the result of a head-on collision four miles west of Jasper. Two other members of the train's crews suffered minor injuries.

Racing Against Time

Quebec, Que.—Paul Paquin and Dick Lesage, trans-Canada canoeists, who left Vancouver on May 1, hope to complete their long voyage to Halifax, N.S., before the rivers through which they must travel freeze up, and are proceeding as fast as possible to their destination.

W. N. U. 1814

Deny Prison Plot Story

Statement Is Made That Nothing Is Wrong With Saskatchewan Penitentiary

Prince Albert, Sask.—"There is absolutely nothing wrong at the Saskatchewan penitentiary, nor has there been any trouble. We are not attempting to hide anything from the public. I give you my word of honor that all the many rumors concerning the penitentiary which have been circulated have no basis in fact."

This was the emphatic denial made by E. R. Jackson, Ottawa, inspector of penitentiaries in answer to a statement that an attempt to burn down the penitentiary had been frustrated in the nick of time; that wardens had found a pile of oil-soaked rubbish in a portion of the building which would easily take fire.

"Since I came here about a week ago, I have gone thoroughly into the matter. I found absolutely nothing to indicate a jail break was being plotted. There was no attack upon jail guards, as one rumor held. There was nothing, in a word, to arouse any suspicion that trouble was brewing here."

Mr. Jackson has no conception of how the report was circulated. As a matter of fact he says the building could not be burned as it is constructed of concrete and steel.

Clue To Whereabouts Of Missing Aviators

New Search Will Be Started For Eielson and Borland

New York.—A new search by land and air will be under way for Carl Eielson and Harold G. Borland, who are lost somewhere in the ice field surrounding North Cape, Siberia.

Officials of the Aviation Corporation announced they had received the first definite clue to Eielson's whereabouts since he pushed his plane into a blizzard on Nov. 9, while flying to the rescue of the ice-locked ship Naumik.

Graham B. Greaves received the following telegram from Frank Donahoe, of Alaska Airways Inc., a subsidiary of the Aviation Corporation, at Teller, Alaska:

"Another dog team arrived from Koluchin and reported seeing smoke in the foothills 36 miles from North Cape. No natives in that district. Probably Eielson. Unfavorable weather and shortage of dog teams made immediate search impossible. Returning to search. Russian plane leaving from Providence Bay to seek Eielson."

Rolled Oats Mills Complain

Say Competition From United States Is Affecting Business Here

Calgary.—Rolled oats mills in Western Canada which invariably at this time of year have been running 24 hours a day, are closed down, or are operating on part time as a result of the flooding of the Canadian market with rolled oats manufactured in the United States. Mills in Calgary, Moose Jaw, Winnipeg and Saskatoon are thus affected.

It is not a matter of dumping, so Canadian millers state; it is a matter of competition. Oats are so much lower in price in the States that the American millers can manufacture rolled oats, pay the duty of 60 cents per 80-pound sack, pay the freight and handling charges, and then undersell the Canadian millers.

The latter have submitted the matter to the federal government at Ottawa, but have been informed that nothing can be done until after parliament meets.

Had Miraculous Escape

Shipwrecked Mariner Turns Up Alive After Hope Had Been Abandoned

London, England.—A Maltese fireman named Attard, supposed to have been drowned when the steamer Moseley was wrecked with the loss of eight lives in a gale two days ago, created a sensation in a hotel at Millford Haven by a sudden appearance. He had remained secluded aboard the wreck until calmer water permitted him to scramble to shore over the great Millford Rock, which rises steeply from the water. His feat was considered a record one.

By chance a retired naval officer in a motor boat spotted Attard on the rock and took him off stiff with cold and almost exhausted.

BRITISH AMBASSADOR

Sir Ronald Lindsay, permanent under-secretary of state for foreign affairs and chief of the English foreign office, who is named as new ambassador for Britain at Washington, succeeding Sir Esme Howard. Copyright, 1929, Pacific and Atlantic Photos, Inc.

Sees Good Market In Asia

Canada Interested In Prospect Of Increased Exports From U.S.

Washington.—"The greatest potential market in the world? Asia, with its billion inhabitants will not be overlooked in the programs for the stimulation of foreign trade to be inaugurated by the Department of Commerce as part of President Hoover's plan for stabilizing business in the United States. The prospect of increased flow of exports from the United States to China and Japan is interesting from the Canadian viewpoint because commodities such as flour, lumber and autos are shipped through the British Columbia ports.

Great Britain, it is pointed out, has been in the Orient for a hundred years and thereby reaps great profit. A Canadian sidelight on the situation is the report from Ottawa of the proposal to establish steamship service from Eastern Canada ports to India and British East Africa.

Alberta Old Age Pensions

1,188 Persons In Province Enjoying the Benefits Of Scheme

Edmonton.—When the checks from the Alberta Old Age Pension Board are distributed for the month of November, 1,188 persons will be included on the permanent roll of pensioners and for the four months during which the scheme has been in operation, nearly \$50,000 will have been disbursed among the aged in the province.

At the end of October only 833 persons were enjoying the benefits of the pension scheme but during the past month, 338 permanent pensioners have been added to the rapidly increasing number. The board officers are dealing with an average of 100 applications every week and it is being found that the tendency is one of steady increase rather than abatement.

PROVINCIAL SWINE CLUB WINNERS, 1929

Winners of the Canadian Pacific Swine Club Competitions, photographed prior to their departure for Toronto, where they attended the Royal Winter Fair as guests of the Railway. They are shown above, with their respective provincial trophies and medals. Sitting, left to right: Bert Curry and Vance, Manitoba winners; George Thornton and Robert Hume, Saskatchewan winners; standing, Hugh McLeod and Harry Naylor, British Columbia winners; William Douglas and Arthur Kriesie, the Alberta winners.

Honors Were Divided

Saskatchewan and Manitoba Win With Clydesdales At Royal Fair

Toronto.—Saskatchewan and Manitoba kept the west to the forefront in the Clydesdale classes at the Royal Agricultural Show, each province winning a championship for stallions. The exhibitors from these two provinces won many other awards. University of Saskatchewan being awarded among other wins, first and fourth for three get-of-sire and two animals progeny of dam. It was Manitoba Day at the Fair, and the province celebrated the occasion in appropriate fashion.

Manitoba's great triumph was the victory of Arnprior Emigrant, the stallion which was awarded the Carle-Rite and Walker House trophy, the finest trophy offered at any Canadian exhibition for best Clydesdale stallion in the show. This is the second time that this horse, owned by the Arnprior Syndicate, has won the trophy and the fourth time in the eight years that it has been competed for that it has gone to Manitoba. Saskatchewan has won it three times and Ontario once.

Railway Earnings Less

Small Movement Of Wheat This Year Reflected In Reduced Revenues

Truro, N.S.—S. J. Hungerford, vice-president of the Canadian National Railways, who is here on a tour of inspection, said that "the wheat situation this year will seriously affect the earnings of railways in Canada. The movement of wheat this year does not exceed 25 per cent. of the movement to this time last year." Mr. Hungerford said, adding that the future of the situation was problematical.

Because elevator space throughout the West and at the head of the Great Lakes is well filled with storage wheat, Mr. Hungerford did not think there would be any considerable shipments for some time. A feature of the 1929 grain transportation, he said, was the movement West via Vancouver. Fully 20 per cent. more wheat has left the country by that route than for the corresponding period in 1928, thus decreasing the tonnage shipped via Atlantic ports of Portland, Me.; Boston, St. John and Halifax.

Congratulations For Minister Of Finance

Hon. C. Dunning Receives Messages From All Over Dominion

Ottawa, Ont.—Hon. Charles Dunning, Western Canada's first Minister of Finance, has been deluged by a flood of congratulatory messages.

These messages came not only from the West but from every province of the Dominion. The first message he received was from an old friend in Halifax. The early hours this morning brought scores of telegrams from Quebec, Montreal, Toronto, Winnipeg, Regina, Saskatoon, Calgary, Edmonton and Vancouver. There were, in addition, innumerable messages from country points in Saskatchewan.

NEW PLANES ARE PURCHASED FOR AIR MAIL SERVICE

Vancouver.—Purchase by Western Canada Airways, Limited, of six combined mail-passenger 'planes for use on the Winnipeg-San Francisco air service has been announced here.

Three of the mail 'planes, which are required for immediate delivery, will be built in Seattle, while the others will be built in Vancouver. The type of 'plane selected by W. L. Brintnell, operations manager of Western Canada Airways, in Winnipeg, has a cabin for four passengers and a mail capacity of 500 pounds. Planes of this type have been flown over the Chicago-San Francisco air mail routes in the United States for the past two years.

All 'planes will be equipped for night flying, as it will be necessary for Western Canada Airways pilots to do a large portion of the route at night. A full day will be cut from the trans-continental mail schedule by the service which will start about the middle of December, mail taken off the train at Winnipeg overtaking at Banff the train which left the east 24 hours earlier.

Between Winnipeg and Calgary, the 'planes will fly by way of Regina, Moose Jaw and Medicine Hat, enroute between Regina and Edmonton they will go by way of Saskatoon. Fields with night flying beacons and landing lights are being installed near Medicine Hat, Alderson, Brooks, Bassano, Nanaimo and Calgary.

The 'planes are powered with 625 horsepower engines, have a high speed of 135 miles per hour and cruise at 115 miles per hour fully loaded. They have a landing speed of 37 miles per hour and climb 800 feet per minute to a service ceiling of 15,000 feet. They carry 140 gallons of gasoline and 20,000 average letters in addition to four passengers. Post office officials report that Cammore-Vancouver air mail route is now under way, the intention being to open this division during the summer of 1930.

Britain Prepared To Help Settle Trouble

Willing To Join In Attempt To Settle Russo-Chinese Dispute

London, England.—Great Britain is prepared to participate with other powers in joint action to bring the Russo-Chinese dispute in Manchuria to a successful termination if such action proves possible.

Right Hon. Arthur Henderson, foreign secretary, made this reply to a questioner in the House of Commons. He said he had passed the question to the United States and British governments with reference to the possibility of joint action in Manchuria. The question had been discussed in the early days of November.

"I think that since then no further communication has been received, but I think a communication has come through a telegram from another government, and if joint action can be taken we are prepared to participate."

Canadian Flying Club Formed

Montreal.—The Aero Club of Canada has been formed here as result of a meeting of the Hangar Club of Montreal, when Col. J. Scott-Williams was elected president. The purpose of the club is to promote interest in flying throughout Canada and to furnish a meeting place for all the ex-officers of the Air Service and for those directly connected with aviation.

Air Mail Popular

Saskatoon, Sask.—Indicative of the widespread interest in the trans-pacific air mail service, 8,000 letters have been received at the post office here for delivery on the first 'plane to leave this city. The letters are from all parts of Canada, the United States, the British Isles and one packet is from the Bahamas.

North Carolina is establishing a Hall of Fame of historic trees.

Ahoy For a Merry Christmas on the Bounding Main!

"At Christmas play and make good cheer. For Christmas comes but once a year."

—Thomas Tassier, 16th Century.

Many and varied are the circumstances under which we moderns must spend the joyous Yuletide season, with its holly, mistletoe and gifts. Time was when Christmas Eve signified happy family gatherings at some big country house or fine old city mansion, but times change, and now most of us must alter our customs accordingly. The modern city apartment and small country cottage preclude large gatherings, but it is still possible for big families to be

together at Christmas time, for the Canadian Pacific Steamships has detailed the 20,000-ton S. S. Duchess of Bedford to make a 15-day Christmas-New Year's cruise to the West Indies, leaving New York December 23, 1929. Thus families can not only be together when the Christmas bells ring out but they will find themselves en route to a warmer clime—the storied Caribbean Sea—famed for its tales of pirates and plunder in days of yore.

Incidentally, none of the hallowed traditions connected with the holiday season are forgotten, once the ship gets under way. Her public halls and rooms are tastefully

decorated with greens; poinsettias and other appropriate plants are everywhere, and the ship's company seems imbued with the spirit of "Peace on earth—goodwill to men." Masquerade parties, big open fireplaces and Christmas trees complete the picture. Holiday voyagers aboard the "Duchess" will visit Havana, Cuba, the Farle of the New World; Kingston, Jamaica, at one time headquarters of notorious buccaners; Cristofol, Panama, formerly on the highway of Spanish treasure trains, now the site of the greatest canal in the world, and enchanting Nassau, in the Bahamas, returning to New York January 8, 1930.

Noticer.

The St. Matthew Ladies' Aid are holding their annual bazar on Sat. Dec. 7, in St. Matthew Schoolhouse No. 2. A sacred Canasta entitled "The Coming of the King" will be given by the pupils of the Sunday school in the United church, Sunday, Dec. 15, at 7.30 p.m. All are welcome.

Know Canada Contest

The Family Herald and Weekly Star, so well known as Canada's outstanding farm and home paper, is launching another of their Know Canada Contest, in which \$3000.00 are being given as prizes. The First Prize is \$1000.00.

Each week four pictures are published and readers are asked to decipher the Canadian post ofices they represent. It is a most interesting pastime, combining a great deal of real amusement and entertainment with an opportunity of carrying off a very nice sum of money in prizes.

It is a contest that will interest every one of our readers and details of it can be had for the asking. A letter to the Family Herald & Weekly Star, Montreal, will bring you all the particulars and a sample copy of the paper too and of course it does not obligate you in any way.

The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Watson, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend, and Perry takes the child Al adores and sails for France. Al, completely broken by his loss, disappears from Broadway and becomes a derelict. One day the sight of Grace Farrell on the street arouses old memories. He returns to Blackie Joe's at night, talking to Blackie in his office until Blackie is called outside by a patron.

CHAPTER XXIV

Blackie crossed the main room bar-sty to shake hands with the departing patrons and urge them to come again. But as he talked his mind was working on Al's problem. Suddenly he reached the conclusion that Grace Farrell was the logical one to approach Al. She might reach his hidden nature, and revive his courage when no one else could. Grace worked at a desk in an alcove on the other side of the main room. A screen concealed her view of the room and she had not seen Al and Blackie cross the floor. Now she had just completed her accounts for the day. She was drowsily sleepy, but her eyes opened wide when Blackie stood before her. From his expression she realized that something important had happened.

"Guess who's here?"
"Who—Blackie? Not—Not Al?"
"The same." Just wandered in a few minutes ago—looks as if he'd been sleeping on the wharves for a month."
Grace's hand darted to her cheek and pressed hard against it. So, it had happened, the thing she had dreamed of and worked so hard to bring about. Al was found!
"Listen, girlie," Blackie leaned forward confidentially. "He's in my office. I've talked to him, tried to make him take a come-back, but I can't make a dent. He just shakes

his head. Now you try. Treat him rough, bawl him out, if you think it'll

Grace rose. She was listening, concentrating, planning. Every life has at least one big moment—this was to be hers! The soul and future of a talented, lovable man was at stake! As she planned she prepared for the big moment in a feminine way—patting her hair into shape, rearranging a stray curl, examining her lips in a mirror. Then she turned determinedly toward the private office.

Blackie stood in the main room, staring after Grace as she walked toward the office. He decided to stay away from Al for a few moments and let Grace work alone.

Meanwhile, Al had been growing restless. After he looked about Blackie's office for a while, carefully studying the familiar pictures on the wall, his nervous tension made him want to jump up and leave. But as he stood up, determined to walk out, he saw Blackie's old piano in a corner of the room, behind the desk.

He walked slowly toward it. Yes, it was the same old battered instrument; he had composed some of his early hits while sitting in front of it. Without thinking, he ran his hands lightly up and down the keys. What fingers! They were stiff, grimy, bruised, sore. Their play across the keys was painful and slow, yet in the end, he seemed to glide up and down the scale in singing ease.

Al looked up, hearing a faint sound, and turned his head. Grace stood in the doorway.

Grace had entered as quietly as possible; she wanted to study him before he saw her, for she knew that in that flash second her intuition might give her a clue as to the best way to proceed with him. Now, as she stood up at her with startled eyes, his really pitiable condition was accurately revealed. She answered his stare with an expression of tender sympathy.

"Al?" she whispered softly.
"Grace! Why, it's really you!"
For a moment she thought he would cry. He seized her hand in both his own and gazed steadily down into her eyes. "His grip was so hard that it numbed her fingers; she felt he was literally clinging to her to save himself from breaking down. All the force of her deep maternal spirit was directed toward him; she longed to take him in her arms and comfort him."

"You've changed a lot!" he exclaimed in astonishment.
Grace refrained from saying he had changed too.

"Have I?" she questioned brightly. "Well, I've grown older, for one thing."

"You're much more beautiful than you were," he continued earnestly. "And you were always a winner."
Again Grace smiled, and deftly turned the conversation. "How have you been, Al?"

He glanced down at the frayed cuffs of his coat sleeves. "Judge for yourself," he grinned ruefully.
"But, Al, you don't have to look like that. You have money."
"Yes, but I don't want it—I don't use it."

Grace waited a moment. She had the same sense of the passive barrier of despair between Al and her that Blackie had felt. Yet there must be a way to cross that barrier! She said firmly:

"Blackie tells me you mean to stage a come-back."

Al shook his head. "Blackie's wrong." But as he said that the young song writer glanced away; he was ashamed to face Grace. Quick as a flash Grace saw the move and thought: "If he isn't past shame, there's hope."

"Listen, Al," she said. "You have the gift of song. Millions of people are made happy by the things you write. Do you think you have any right to crush that gift and turn your back on all these people?"

"That's just preaching, Grace. A man in my situation has a right to live the way he pleases, providing he doesn't hurt any one. I don't hurt anybody."

"Yes, you do."

Al shot an astonished, questioning look at Grace.

"You hurt me, for one person," she said gravely. "Of course that doesn't matter. But you hurt someone else—hurt him terribly. You hurt your son, whom you love. What will he think when he grows up and learns that his father drifted downward, allowing himself to become an utter failure?"

Grace's voice had risen to a pas-

The Breathable Tablet
COUGHS COLDS & BRONCHITIS

donate ring as she concluded. It was a terrible ordeal for her to talk in this accusatory way to Al, but his case needed it. Grace had said: "Treat him rough." Blackie saw that only drastic treatment would arouse him.

Al winced visibly and reached toward the piano for support. He couldn't believe his ears—gentle Grace talking to him this way! Her eyes were like steel.

"Junior will never know about me," he answered defiantly. "No one will tell him. He'll grow up believing I disappeared and died in some unknown place. That is what is going to happen to me. He'll never see me as you see me now—a bum!"

Then Grace played her strongest card. "Yes, he will know about you!" she cried, with blazing eyes. "I'll see to it that he does know! I'll tell him!"

"You'll—what?" Al's mouth dropped in wonder; Grace began to gather in his eyes.

"I'll tell him everything about you! How you look at this moment, how you ran away from everybody who wanted to help you, how you became content to drift downward to the dogs of life. I'll see that he knows everything about you, Al Stone! Don't forget it!"

Al believed Grace meant what she said. He staggered for a moment, then crouched and began moving toward her, a hateful look in his eyes. Grace saw his fingers twitching, eager to get at her throat, but she did not give an inch as he approached.

"If you do that," he whispered with deadly stousness, "I'll kill you!"
(To Be Continued.)

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

French Museum Gets

Cedar Grizzly Bear

Primitive Work Of B.C. Indians To Find Place in Old World Collection

A grizzly bear carved out of a tree, a piece of primitive but magnificent Canadian art is now on its way to Paris, to be studied and admired. The grizzly bear of Nisqually, taken in its nine figures with wide staring eyes and grinning mouths, a strange and thrilling tribal story, is the gift of the Canadian National Railways to the Trocadere Museum. It will be given in a place of honor in the ethnological section of the museum, in the hall devoted to the Indians of North America. This hall is being reconstructed by Paul Cose, French painter and expert in Indian art and customs. Mr. Cose spent part of last summer at Kitwanga and Hazelton, B.C., where the best of Canada's totem poles stand in their native setting.

T. H. Campbell, Canadian National Railway engineer, who has for several years been engaged in the work of restoring and preserving totem poles in the Skeena River Valley and along the coast of British Columbia, procured the grizzly and arranged for its shipment to France. The pole stands twenty feet tall.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. E. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it today from your dealer.

Teacher—We can't take things that are unlike from each other—for instance, you can't take three cakes from four cheeses.

Farmer's Son—But you can take three gallons of milk from four cows. Minard's Liniment for Chapped hands.

Soviets Pass Drastic Law

Russians Refusing To Return To Country On Call Are Declared Outlaws

Henceforth Soviet Citizens working or residing abroad who may refuse to obey the summons of their government to return to Russia will be adjudged guilty of treason. When finally taken into custody they will be sent to prison and shot within 24 hours after identity is established.

This drastic measure was taken by the central executive committee of the Soviet Union in the light of the recent refusal of M. Beasodovsky, of the Soviet embassy at Paris, to return to Moscow to face trial on charges of embezzlement.

The new decree is retroactive and declares that all such Soviet citizens will be classed as outlaws and deserters, and as enemies of the workers and peasants. All their property will be confiscated and their cases tried by the supreme court of the union and their names broadcast as outlaws.

KEEP THEM HAPPY BY KEEPING THEM WELL

It is natural for children to be happy, active and full of fun. When they are fretful, fussy and disinclined to play you may be sure something is wrong. Almost invariably that something lies in the digestive tract.

It is to meet the need for an absolutely safe correction of childhood ailments that Baby's Own Tablets have been designed. They gently regulate the stomach and bowels and thus drive out constipation and indigestion, break up colds and simple fevers and allay teething pains. Concerned then Mrs. W. E. Forsyth, Dover, N.B., writes:—"I would not be without Baby's Own Tablets as I know of nothing that equal them for fretful, fussy babies who are troubled with colds or sour stomach."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Made Successful Flight

Windmill "Plane Remarkably Steady Even in Strong Wind"

An airplane fitted with four windmill "planes," which revolve, recently made a tour of Europe, and landed at Lympe, England. Although there was a fairly strong wind, it was remarkably steady in its flight. The craft was piloted by M. Elion, of Paris. When flying over Lympe, it circled several times, and eventually came straight down from a height of several hundred feet, making a perfect landing.

Minard's Liniment for Coughs.

A journey to Berlin from London by land and water takes twenty hours; by air it takes only nine and three-fourths.

Chest Colds Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it acts 2 ways at once:

- (1) Direct to air passages with its healing vapors released by body heat;
- (2) Direct, like a poultice, it "draws out" the soreness.

Little Helps For This Week

"God loveth a cheerful giver."—2 Corinthians ix. 7.

Give as the morning that flows out of heaven.

Give as the waves when their channel is risen;

Give as the free air and sunshine is given;

Lavishly, utterly, joyfully give;—Not the waste drops of the cup overflowing.

Not the faint sparks of thy heart ever glowing.

Not a plume bud from the June roses before it blows.

Give as life gave thee, who gave thee to live!

—Rose Terry Cooke.
"We are not at all sure that we shall have any possessions, anything of our own in the future. Life—anything, consequently, to give away. Perhaps it will all belong to all. So let us have enough while we can, and enjoy the best part of possession."
—Jean Ingelow.

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."
—Evelyn Bouquet, 132 Alma Street, Moncton, New Brunswick.

Here and There

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canadian exhibitors at the Imperial Fruit Show recently held at Bingley Hall, Birmingham, England. Eight of the first prizes were won by Nova Scotia growers, five of them by Chas. A. Bentley, of Berwick, N.S.

Four buntuses from New York State saw 183 moose during the ten days of October they spent hunting in Albert County, New Brunswick, with headquarters at the camp owned and operated by Guide Charles C. Dixon, of Alma, according to a report made by R. D. Stowell, of Alden, N. Y., who headed the party, to the New Brunswick Government Bureau of Information and Tourist Travel.

Contract for building a 5,500,000 bushel grain elevator at Prescott, Ontario, on the St. Lawrence has recently been let by the Canadian Government. Its cost will be about \$3,100,000 and construction must be completed by August 1, 1930. It is hoped it will be ready before the Welland Canal, built at a cost of \$120,000,000 is opened before next year's grain harvest in Western Canada begins.

Official report on employment in Canada states that in October of this year conditions were exceptionally satisfactory. Reports from 7027 employers with staffs totaling 1,089,583 persons, showed employment at 125 based on the average for the calendar year as 1928. This is the highest on record for the time of year and compares with 118.5 for October 1, 1928.

World-wide interest is being attracted by the Canadian Pacific plans to include Honolulu as a port of call on westbound voyages of its White Empress fleet, commencing in December. Grant Hall, vice-president of the Railway, stated at Vancouver recently. Though taking these ships a little out of their course to Yokohama, it will still leave them their supremacy in making the fastest run between this continent and the Orient, he added.

Three functions of interest which are expected to attract hundreds of Canadian and American tourists will be staged in Victoria in the next three months. They are the Yuletide Music Festival in December, the Sea Song Festival in January, both held at the Empress Hotel, and the second annual mid-winter golf tournament in February which had so outstanding a success last winter.

The 300 odd inhabitants of Foremost, Alberta, claim it as one of the busiest communities of Western Canada. In the past two years it has shipped more than 2,500,000 bushels of grain, mostly wheat. The town is also progressive in its educational and sports facilities.

Shipments of pitchard oil from the west coast of Vancouver Island are increasing yearly. One vessel recently took 650 tons in bulk destined for Europe, where margarine is still a staple diet. Sometimes whale oil is used as a substitute for pitchard oil in the manufacture of margarine.

Such Crowds, Such Buying, Such Prices

Roving feet, delightful eyes, and pleased customers is the picture of Jacob Miller's store, since selling started Wednesday morning. The people smiled knowingly when they entered the store and found bargains far below their fondest expectations. The store was jammed with bargain wise people, many who came from a distance of 25 and 30 miles. If you haven't attended this selling event as yet, do so at once before many of the lines are depleted.
